

# Upgrading Alice: a Demonstration - May 28, 2013

WCADV's Technology Coordinator demonstrates how to install an Alice upgrade in this 19-minute webinar.

1. Download the upgrade file.
2. Turn off the Alice server (from the icon or from Services).
3. Run the upgrade and copy 4 files to the Alice shared folder (if you have one).
4. Run the Alice Verify utility.
5. Restart the Alice server (from the icon or from Services).

**NOTE:** Read each Upgrade Notice carefully in the event it includes any special instructions.

## **View and listen**
