

One Click: Tell Your Member of Congress to Oppose Rollbacks in VAWA

The effort for a strong Violence Against Women Act that protects all victims, including immigrant, LGBT and Tribal victims, continues. The House version of VAWA, H.R. 4970, contains harmful provisions and eliminates safety enhancements contained in the Senate version. A vote on this bill may come as early as next week.

Please click here to quickly send a message to Wisconsin Members of Congress telling them to oppose H.R. 4970!

[Note: the site will say the petition is going to Rep. Paul Ryan, but it will actually be sent to all Wisconsin Members of Congress. Your name and city will also be posted to a public website.]

H.R. 4970:

- Weakens or deletes entirely some of the vital improvements in the Senate bill, including the strong provisions that are designed to increase the safety of Native women and the needs of the LGBT community.
- Contains dangerous provisions that would jeopardize the safety of immigrant victims seeking to report crimes by eliminating important confidentiality protections, undermining effective anti-fraud protections and rolling back years of progress.
- Grows excessive and costly bureaucracy that will divert resources which could be used for direct victim services.
- Dilutes emergency housing transfer protections and eliminates requirements that victims be informed of their housing rights.

We must urge Wisconsin's Members of Congress to oppose this version of VAWA and to work with survivors, advocates and legislators of both parties to address these serious problems with H.R. 4970. Economic analysis has shown VAWA saved billions of dollars and countless lives over its history. We should be looking to build upon the historic success of this legislation—not rolling back commonsense safety measures. Victims and survivors in Wisconsin deserve a VAWA that works for all of the individuals and communities of our state. If you are from Wisconsin and care about victims of domestic violence, sexual assault and stalking, please sign this petition.
