

Action Alert: I'm an NRA member

From Mayors Against Illegal Guns:

"*I just don't want to die.*" That's what my sister Zina said when she asked a judge for a restraining order against her disturbed and abusive husband.

The order was granted, and her husband was legally prohibited from buying a gun. **But he bought one anyway -- by going online and purchasing a gun from a private seller with no background check.**

He used that gun to shoot seven people, killing three, including my sister Zina.

Please watch a short video I made to share Zina's story with my members of Congress, then join me in Demanding Action to end gun violence.

I'm an NRA member, and I enjoy shooting guns. I support the Second Amendment, but I also support common sense gun laws -- especially laws that require background checks for all gun sales.

Background checks would have saved my sister's life, and they wouldn't have interfered with anyone's gun rights. 92% of Americans agree with me, including 76% of my fellow NRA members. **So why has Congress been so slow to act on gun reform?**

Mayors Against Illegal Guns has gathered more than 1.4 million signatures demanding that Congress take action, and we're delivering them to Senator's home offices this Friday, April 5th.

I hope you'll watch this video and share the petition with everyone you know:

<http://act.demandaction.org/sign/elvin>

Thank you for helping to honor my sister and others who have been lost to gun violence.

Elvin Daniel
